EDUCATION

Shri Ramdeobaba College of Engineering and Management, Nagpur, MH

Bachelor of Technology (Computer Science & Engineering)

Expected 2027

Government Polytechnic, Nagpur, MH

Diploma in Information Technology

2021 – 2024

INTERNSHIP EXPERIENCE

Backend Developer Intern — RB Tech Services

Jan 2024 – Apr 2024

- Developed and maintained RESTful APIs using Java and Spring Boot for backend services
- Implemented business logic, request validation, exception handling, and database integration using MySQL and JPA
- Assisted in securing APIs and improving reliability through proper error handling practices
- Collaborated with frontend developers in an agile environment using Git for version control

UNIVERSITY PROJECTS

Scalable E-Commerce Backend System

Feb 2025

- Designed and developed a scalable e-commerce backend using Java and Spring Boot following REST architecture
- Implemented JWT-based authentication, product catalog, cart, order, and inventory modules
- Improved API performance using Redis caching and transaction management for data consistency

Event Ticket Booking System

Jun 2025

- Built a high-concurrency ticket booking backend using Java and Spring Boot
- Implemented seat locking and timeout-based release to prevent double booking under concurrent requests
- Ensured transactional consistency and data integrity using database transactions

TECHNICAL SKILLS

- Programming Languages:** Java (Primary), SQL, Python (Basic)
- Frameworks & Libraries:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA
- Databases:** MySQL, PostgreSQL
- Tools & Platforms:** Git, Docker, Postman, IntelliJ IDEA
- Concepts:** OOP, Data Structures, REST APIs, Transactions, Concurrency (Basic), Backend System Design (Basic)

ADDITIONAL

- Solved 300+ Data Structures and Algorithms problems across online platforms
- Certification:** Web Design for Everybody Capstone — University of Michigan (Coursera)
- Hands-on experience with HTML, CSS, responsive design, accessibility, and wireframing
